

International Telecommunicator Of the Year Award

(Continued From Opposite Page)

NOMINATION PROCESS

The rules for nomination of a telecommunicator are as follows:

- The nomination will be presented by an APCO Chapter, not the nominee's agency. The only exception to this will be if a nominee does not have an APCO Chapter in his or her state, or is from a country without an APCO Chapter.
- A nomination form must be filled out completely and returned to the Chairperson of the Operating Procedures & Training Committee. The nomination form and rules can be obtained from the Membership Department at APCO Headquarters (800-824-1850).
- Include with the nomination all available documentation of awards and commendations received by the nominee.
- Submit any newspaper articles, magazine articles, and tape transcripts to support the nominee's incident, etc.
- All nominations must be turned into the Chairperson of the Operating Procedures & Training Committee by June 1.

If a fellow employee of the nominee is a member of the APCO Operating Procedures & Training Committee, or if a member of the Operating Procedures & Training Committee is nominated, that Committee member will abstain from voting on the award selection.

CPRA Chapter Donates To APCO Building Fund

The CPRA Chapter has presented a donation to the APCO Building Fund. The Chapter is in its second year of selling "National Telecommunicator Week" buttons and is donating 10% of the net sale proceeds to the Building Fund. The 1991 contribution was \$143.11. CPRA Chapter President Donald E. Root Jr. said, "I am confident that our check to cover the 1992 proceeds will be even larger, as we finally achieve Congressional recognition."

An order blank for the pins was in the November and December issues of the BULLETIN, or you may contact any CPRA Chapter member for information about purchasing a pin.

Information Requested

The Milwaukee Police Department needs information about 9-1-1 legislation in other states regarding fees collected by the Regional Bell Operating Company. Milwaukee's fee (23¢) will decrease in September to pay only for recurring charges on trunks and maintenance of the trunks. Copies of legislation allowing a certain percentage of these fees to be turned over to the municipality for updating 9-1-1 equipment is requested, or any other information that will help Milwaukee change existing state legislation to permit use of the fees in that way.

If you can supply any information, contact Telecommunications Specialist Nancy A. Brzonkala, Milwaukee Police Department, 749 W. State St., P.O. Box 531, Milwaukee, WI 53201, or call her at 414-935-7605 (fax, 414-935-7108), or Police Alarm Operator Rick Winter at 414-935-7740.

MONIPAGE

Two-tone sequential tone and voice monitor pager

May be used as a conventional two-tone sequential tone and voice pager, or as a monitor receiver to monitor all communications on the channel.
